

Diet and Headache – Foods

Dietary triggers do not necessarily contribute to headaches in all patients, and particular foods may trigger attacks in certain individuals on occasion. Be your own expert by keeping a log of the foods you have eaten before a migraine attack, and see whether the removal of these foods from your diet reduces or eliminates your headaches. Below is a list of foods that may trigger migraine headaches and should be avoided by sufferers.

AVOID

- Ripened cheeses - Cheddar, Emmentaler, Stilton, Brie and Camembert
- Permissible cheeses, American, cottage, cream cheese and Velveeta
- Herring - pickled or dried
