

Bright Futures Parent Handout

5 and 6 Year Visits

Here are some suggestions from Bright Futures experts that may be of value to your family.

ORAL HEALTH

Healthy Teeth

- Help your child brush his teeth twice a day.
 - After breakfast
 - Before bed
- Use a pea-sized amount of toothpaste with fluoride.
- Help your child floss her teeth once a day.
- Your child should visit the dentist at least twice a year.

SCHOOL READINESS

Ready for School

- Take your child to see the school and meet the teacher.
- Read books with your child about starting school.
- Talk to your child about school.
- Make sure your child is in a safe place after school with an adult.
- Talk with your child every day about things he liked, any worries, and if anyone is being mean to him.
- Talk to us about your concerns.

MENTAL HEALTH

Your Child and Family

- Give your child chores to do and expect them to be done.
- Have family routines.
- Hug and praise your child.
- Teach your child what is right and what is wrong.
- Help your child to do things for herself.
- Children learn better from discipline than they do from punishment.
- Help your child deal with anger.
 - Teach your child to walk away when angry or go somewhere else to play.

NUTRITION AND PHYSICAL ACTIVITY

Staying Healthy

- Eat breakfast.
- Buy fat-free milk and low-fat dairy foods, and encourage 3 servings each day.
- Limit candy, soft drinks, and high-fat foods.
- Offer 5 servings of vegetables and fruits at meals and for snacks every day.
- Limit TV time to 2 hours a day.
- Do not have a TV in your child's bedroom.
- Make sure your child is active for 1 hour or more daily.

SAFETY

Safety

- Your child should always ride in the back seat and use a car safety seat or booster seat.
- Teach your child to swim.
- Watch your child around water.
- Use sunscreen when outside.
- Provide a good-fitting helmet and safety gear for biking, skating, in-line skating, skiing, snowboarding, and horseback riding.
- Have a working smoke alarm on each floor of your house and a fire escape plan.
- Install a carbon monoxide detector in a hallway near every sleeping area.
- Never have a gun in the home. If you must have a gun, store it unloaded and locked with the ammunition locked separately from the gun.
- Ask if there are guns in homes where your child plays. If so, make sure they are stored safely.
- Teach your child how to cross the street safely. Children are not ready to cross the street alone until age 10 or older.
- Teach your child about bus safety.
- Teach your child about how to be safe with other adults.
 - No one should ask for a secret to be kept from parents.
 - No one should ask to see private parts.
 - No adult should ask for help with his private parts.

build a healthy meal

10 tips for healthy meals

A healthy meal starts with more vegetables and fruits and smaller portions of protein and grains. Think about how you can adjust the portions on your plate to get more of what you need without too many calories. And don't forget dairy—make it the beverage with your meal or add fat-free or low-fat dairy products to your plate.

1 make half your plate veggies and fruits

Vegetables and fruits are full of nutrients and may help to promote good health. Choose red, orange, and dark-green vegetables such as tomatoes, sweet potatoes, and broccoli.

2 add lean protein

Choose protein foods, such as lean beef and pork, or chicken, turkey, beans, or tofu. Twice a week, make seafood the protein on your plate.

3 include whole grains

Aim to make at least half your grains whole grains. Look for the words "100% whole grain" or "100% whole wheat" on the food label. Whole grains provide more nutrients, like fiber, than refined grains.

4 don't forget the dairy

Pair your meal with a cup of fat-free or low-fat milk. They provide the same amount of calcium and other essential nutrients as whole milk, but less fat and calories. Don't drink milk? Try soy milk (soy beverage) as your beverage or include fat-free or low-fat yogurt in your meal.

5 avoid extra fat

Using heavy gravies or sauces will add fat and calories to otherwise healthy choices. For example, steamed broccoli is great, but avoid topping it with cheese sauce. Try other options, like a sprinkling of low-fat parmesan cheese or a squeeze of lemon.

6 take your time

Savor your food. Eat slowly, enjoy the taste and textures, and pay attention to how you feel. Be mindful. Eating very quickly may cause you to eat too much.

7 use a smaller plate

Use a smaller plate at meals to help with portion control. That way you can finish your entire plate and feel satisfied without overeating.

8 take control of your food

Eat at home more often so you know exactly what you are eating. If you eat out, check and compare the nutrition information. Choose healthier options such as baked instead of fried.

9 try new foods

Keep it interesting by picking out new foods you've never tried before, like mango, lentils, or kale. You may find a new favorite! Trade fun and tasty recipes with friends or find them online.

10 satisfy your sweet tooth in a healthy way

Indulge in a naturally sweet dessert dish—fruit! Serve a fresh fruit cocktail or a fruit parfait made with yogurt. For a hot dessert, bake apples and top with cinnamon.
